

PHYSICIAN ASSET PROTECTION PLANNING SEMINAR

Learn How To Help Protect Your Assets From Lawsuits And Creditors
(Updated and Revised Topics for 2017)

The March 13, 2014 Florida Supreme Court Case ruling of (Estate of McCall v. United States) has repealed the cap on non-economic damages in medical malpractice cases. From a practical standpoint, this means that a Florida physician sued for malpractice could now face a multi-million-dollar judgment. Since this awful ruling is now a reality for Florida physicians, asset protection planning has become more essential than ever. Attend this seminar and learn from some of the foremost experts in the industry on the subject of Asset Protection Planning.

Adam O. Kirwan, J.D., L.L.M., Attorney and author of the books *The Asset Protection Guide for Florida Physicians* and the *Asset Protection Guide for Florida Residents*, will present on the following topics:

- How to use trusts and estate planning to help protect your assets.
- What assets are exempt from your creditors and how to use them to help protect your wealth.
- How to use wage accounts to help protect your earnings from garnishment.
- Why the "P.A." is the worst legal entity to house your medical practice and what you can do to fix the "P.A. Problem".
- How Florida's revised Limited Liability Company Act may impact your asset protection.
- How to structure the ownership of owner-occupied medical space to protect the property from lawsuits.
- And much more.

Hosted by: Dan Shannon *(This seminar is entirely free!)*
